

# **FILTERATION BLOCKS** وحدات الفلترة

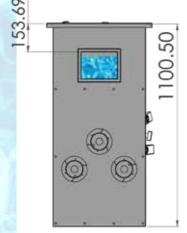

# **SINGLE FILTER UNIT**

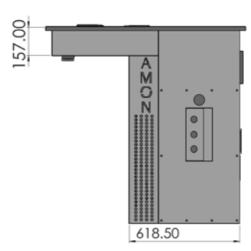

# وحدة فلترة أحادية

Power	35 m³/h	
complete set	<ul> <li>- Light: LED 18 W x 3.</li> <li>- Filter: Cartridge Filter.</li> <li>- Vacuum Cleaning function</li> <li>- Electrical control panel</li> <li>- prefilter basket</li> </ul>	
Intended use	For new pool and for renocation: - VMB 35 m³/h - Pools up to 60 m³	
Colour	hight-alloyed 3D stainless steel AISI 316	

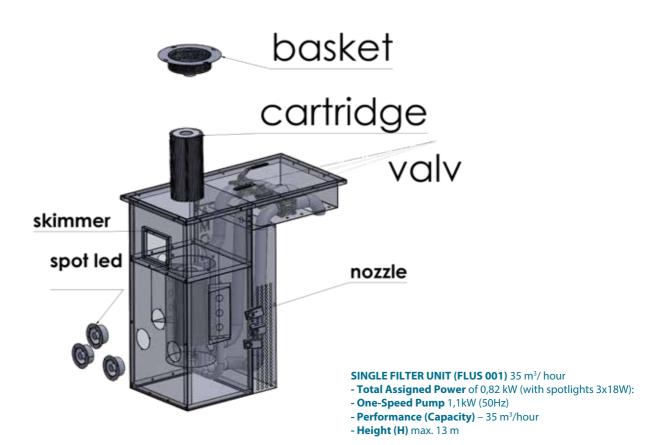

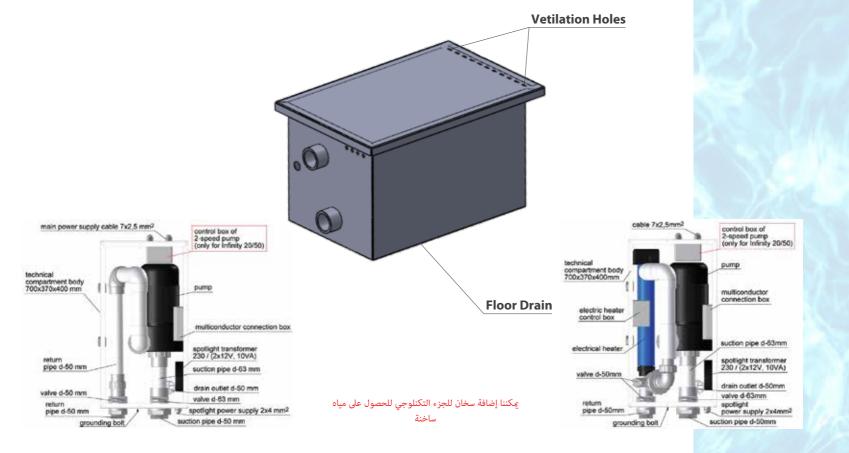

# Filter Part جزء الفلترة

# **Technical Part**

# الجزء التقني

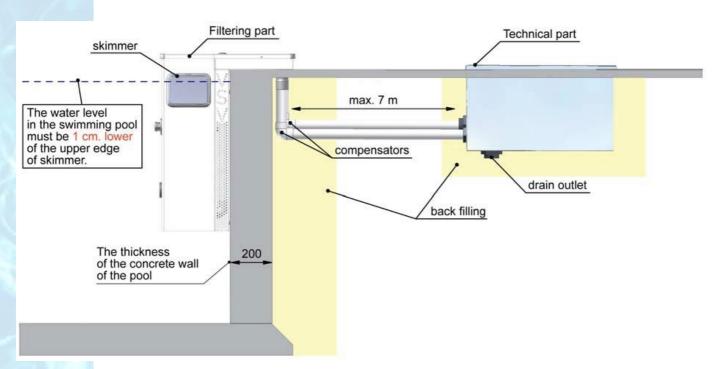

## **INSTALLATION & CONNECTION**

# البناء والتركيب

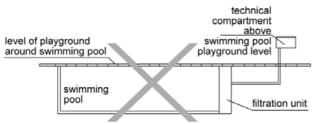

Place the block on the wall of the pool, as shown below,. If necessary, align it with the water level and fasten the block mounting bolts in a projected place.

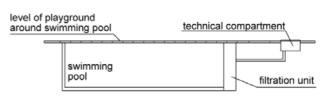

# INSTALLATION OF THE TECHNICAL PART

# تركيب الجزء التقني

#### Incorrect installation

Correct installation

#### **VENTILATION**

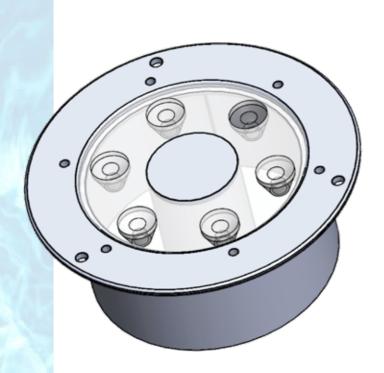

**Warning!** Never cover the ventilation holes in the lid of the technical compartment. Otherwise the equipment will have to work with increased productivity, which increases power consumption and can cause overheating and damage of motor.

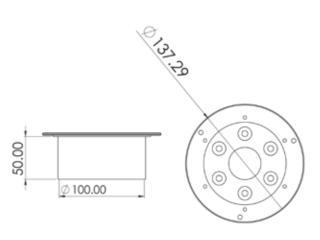

#### لتهوية

تحذير! لا تقم أبدًا بتغطية فتحات التهوية في غطاء المقصورة الفنية ، وإلا فسيتعين على الجهاز العمل بإنتاجية متزايدة ، مما يزيد من استهلاك الطاقة ويمكن أن يتسبب في ارتفاع درجة الحرارة وتلف المحرك .
